Meeting of the Jackson Harbor Committee May 9, 2016 at 1p.m.

In attendance were Butch Jess, Marvin Fuller, Kathleen Morris, Lee Engstrom, Dick Donnelly and Judy Donnelly.

Things that were discussed:

Old iron stove to be removed and stored in old ice house barn behind museum. The barn has to be cleaned out by the person who is storing several boats and other items to make room for museum items.

There is 4 old outboard motors to get rid of.

Marvin Fuller would like to remove what is left of the old chimney.

There is a rotted beam above back side of chimney that needs attention.

Inside of front entrance doors need to be repainted.

Cleaning is an ongoing project

Maritime Museum Mg.

Jon....The Jackson Harbor committee met at the Maritime Museum to check on things as to what we could keep and what to get rid of. There are 4 old outboard motors in the second building on the floor we want out of there. You can decide to keep them or sell them or put up for bids. Any questions please contact me. Thank You.....Judy
